SmartBesik team

A2Screenshots of mobile smartBesik app

February 15, 2014

Project Description

Have you ever seen how fresh mothers run around a house and do not know what to do: nursing child or greet guests? How about a smell of burnt cake, have you ever smell it? I think yes. These are daily routines of every child mother. And now, there is a great product named SmartBesik. Cradle that makes your mother's or wife's or daughter's life mush easier. It cradles your baby, sings lullabies, looks after a temperature of baby, its coverlet and more.

Goals

Our team began working on new version of SmartBesik. We will make it much smarter and easier to use. The old version has primitive interface with remote control panel. We will use much newer technologies and make mobile interface for controlling and tracking the SmartBesik.

Actors

- Mothers (or not mothers): Someone who will cradle besik
- Costumer Service: Someone who will help mothers

Use-Cases

- Mothers:
  - Control besik
  - Ask Questions

- Costumer Service:
 - Answer questions and troubleshoot issues

Screen 1

These squares are indicators or buttons for controling besik. Explaining from top left square.

1. Indicates is baby crying or not
2. Is baby sleeps or awake
3. Manually turn on lullabies
4. Automate lullabies and cradling
5. Manually cradle
6. Sleeping time
7. Temp. around besik
8. Is baby urined ir not...

Screen 2

Statistics. There will be graphs of babies sleep time by days, urinate time, and etc... If you rotate your phone there will be full graphs.
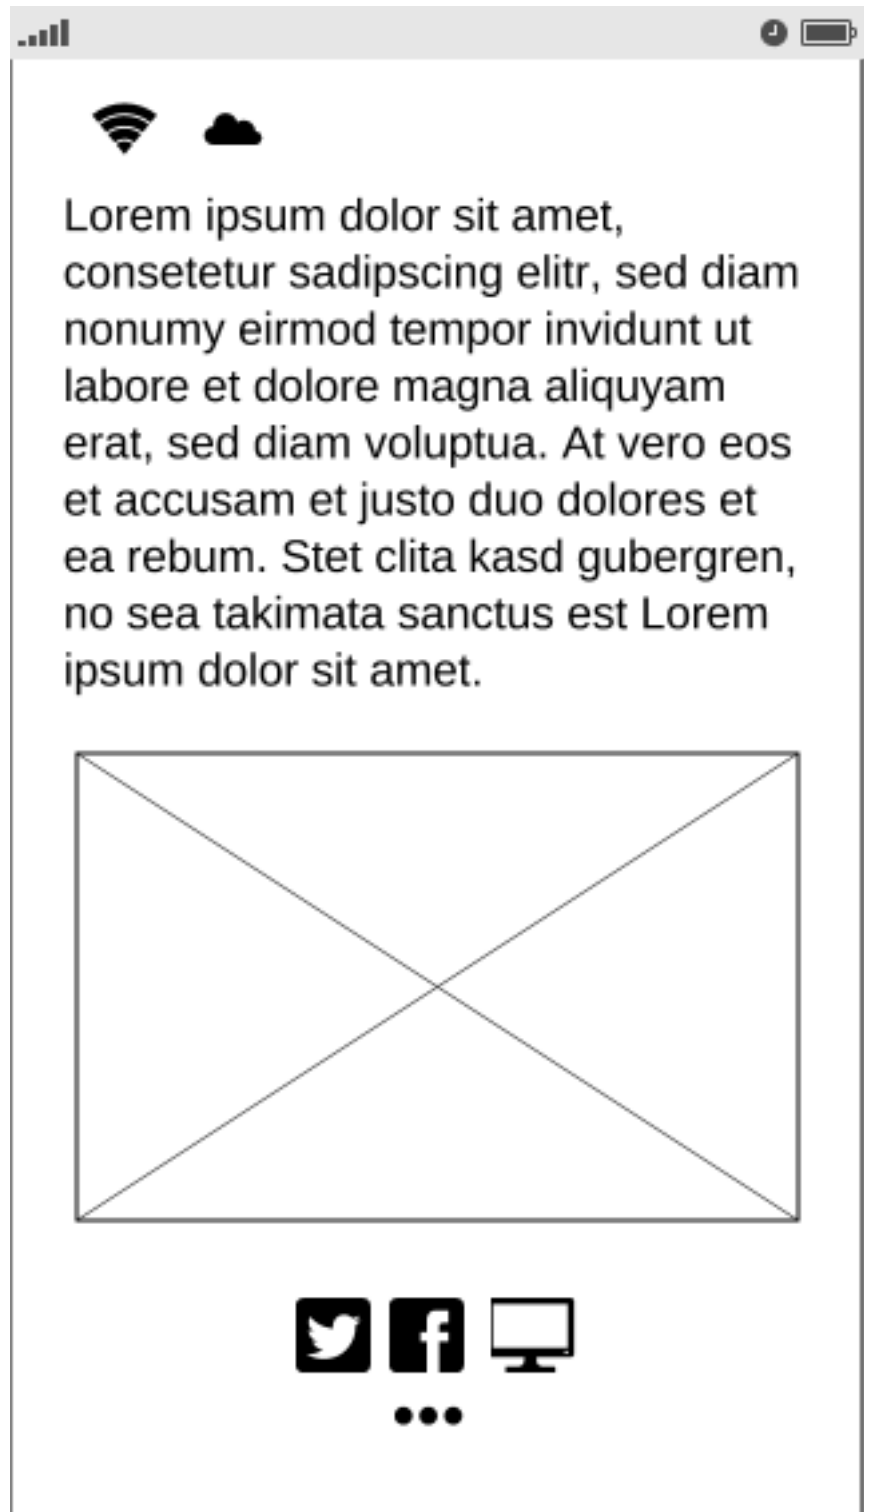

Screen 3

Landscaped view of Sceen 2

Screen 4

In this view will some instructions, links to social pages of our team and web page.

And on the top indicators: Connection quality and Synchronizing (It will be synchronize statistics)
